Last update: October 21, 2026

Up-to-date version of CV is available at
https://sneas.github.io/cv/

A full-stack developer with over 18 years of experience. The setup for my last three projects is AWS / Serverless / Lambda / NodeJS / TypeScript for the backend, Angular / React / VanillaJS / WebComponents for the front end, Cypress / Jest / Playwright for testing, and CI/CD / Terraform for ongoing automation.

Professional Experience

Vocably, Weesp, NL

Senior Full-Stack Developer, Founder

Nov 2021 - Present
5 years

AWS | GCP | Terraform | NodeJS | React Native | Angular | OAuth | Browser Extensions | TypeScript

As the only founder and software engineer of a language-learning platform, I am fully responsible for the entire product lifecycle. From ideation to revenue generation including customer support, marketing, and GDPR compliance. The platform is growing slowly, but steadily without much babysitting on my side. The platform includes:

- AWS/GCP cost-optimized infrastructure that is running AI prompts and caching the results
- iOS and Android apps created with React Native
- Web app created with Angular
- Browser extension created with Web Components
- Thousands of SEO-friendly landing pages created with Vanilla TypeScript

Users love this product, and 25% of its growth is attributed to word of mouth.

Air France/KLM, Amstelveen, NL

Senior Full-Stack Developer, Contract

Nov 2022 - Nov 2024
2 years

NodeJS | TypeScript | CI/CD | GitHub Actions | Kubernetes | Angular | Azure | A/B Testing | Nx | GraphQL | Playwright

A software/DevOps engineer for Air France and KLM. If you've purchased tickets with KLM or Air France since 2022, you've encountered my code. The system I maintained (as part of a team, of course) generates approximately €1 billion each month.

My responsibilities at Air France/KLM included maintaining and developing the following:

- Codebase for airfrance.fr, klm.com, and ~180 regional domains (Angular, Nx, Apollo)
- Codebase for the frontend and backend servers (NodeJS, GraphQL, Express, Redis, Kubernetes, Azure)
- Codebase for microservices participating in passenger checkout (NodeJS, MongoDB -> CosmosDB, Kubernetes, Azure)
- CI/CD pipelines (GitHub Actions, Nx, Docker, Playwright, Load Testing with K6)
- A/B testing platform and experimentation (Optimizely)

Reference: Sander Verweij, Product Owner

DAZN, Amsterdam, NL

Full-Stack Developer

Jul 2019 – Jan 2021
1.5 years

AWS | Terraform | NodeJS | Next.JS | GraphQL | React | Mobx | Redux | Tailwind | Webpack | Jest | Storybook

DX engineer for DAZN - a leading sports streaming platform.

Reference: Cirpo Cinelly, Engineering Manager

KLM Royal Dutch Airlines, Schiphol, NL

Senior Frontend Developer, Contract

Feb 2017 – Jun 2019
2.5 years

Angular | Ionic | RxJS | NgRx | TypeScript | NodeJS | NestJS | SASS | Webpack | Jest

Bootstrapped, maintained, and passed over to another team an internal mobile app.

My users (KLM mechanics at Schiphol) loved the app, and two of my managers referred me for another contract between 2022 and 2024 (see above).

Reference: Önder Ceylan, Tech Lead

upwork.com, Mountain View, USA

Senior Frontend Developer, Contract

Oct 2012 – Jun 2014
1.8 years

Javascript | jQuery | qUnit | Grunt | Selenium | Compass/SASS | PHP | Zend | Postgres

I helped the biggest freelance marketplace, Upwork, to build and perfect the Job Posting part of their website.

Reference: Sean Kane, Vice President of Engineering

Career insights

2010 – 2012
Full stack freelancer (PHP, JS, SQL, Linux, CI/CD) for small and middle-sized projects.
All of my clients gave me a 5-star rating. Reviews are available here. Must register to see them. Sorry.

2005 – 2010
Junior/middle full-stack developer (PHP, JS, SQL, Linux).
Thank you, GameWatcher and RecordNerd.com, for unknowingly letting me practice the craft of web development on you.

2000 – 2003
Worked as visual designer for a local TV channel. Acquired an eye for object composition, color matching, and animation

Education

Master's degree in Computer Engineering. Sevastopol State Technical University [2002 – 2007]

Certifications

- AWS Certified Solutions Architect - Associate - Jan 18, 2019
- Professional Scrum Master I - Apr 2, 2018
- React Nanodegree - Dec 27, 2017
- Zend Certified Engineer `PHP 5.3` - Jan 24, 2011

Additional experience

Some of my interests and hobbies revolve around GitHub and open source community.
